

## Chapter 1.3 – Context: listening suggestions

On the next screen, you'll find different performances of Bach's 2-part Invention n.10. Nonetheless, as they were all played by me, they won't be so different from each other than they will be from other pianists playing the same music. Therefore, I'd like to invite you to also listen to at least, but not only, recordings performed by:

- András Schiff
- João Carlos Martins
- Valentina Lisitsa
- Glenn Gould

And you should listen to other Bach compositions played by:

- Maria João Pires
- Martha Argerich
- Mitsuko Uchida
- Daniel Barenboim
- Vladimir Ashkenazy
- Sviatoslav Richter
- Glenn Gould
- Friedrich Gulda
- Wanda Landowska
- Claudio Arrau

About the clavier works, be sure to listen to performances played on clavichords, harpsichord, organ. Also, look for good recordings of chamber music, concertos, masses and vocal works.
