# iClassical Academy

a life-long source of musical inspiration

---

iClassical Online Academy helps musicians all over the world to perfect their skills and cultivate their talent: 360° all-round music education.

Tuition fees are affordable for most students. Nevertheless, along with our online learning platform experience, we found out that many classical music students in the world cannot afford the tuition.

## The Scholarship Program

---

We have created a Scholarship Program for selected students who live in a challenging environment. It offers a full access to all courses and classes for a one-year period.

A contribution of US\$ 200 gives 1 student access to a full yearly subscription.

Donors can choose the amount of students they want to support.

If they so wish, Donors can suggest students or leave it up to iClassical. Donors can also choose if they want to be nominated on a dedicated page of our Website. In any case, they will receive the names and e-mail address, with a picture, of the students they finance.

## Selections of students

---

Students who are not recommended by Donors are selected through:

- Nomination by conservatories and schools
- Nominations from our Young Advisory Board
- Application form that students can send
- Through the Sistema Global Partnership Program

# Help iClassical support the young generation!

Join us in our commitment to support young musicians and become the protagonist of their music career !
